MATERIAL SAFETY DATA SHEET

**SECTION I – Identity**

**Product names:** Gun Protect Weapon Cloak and Gun Protect Ammo Cloak  
**Generic name:** Low Density Polyethylene (LDPE) CIS Film

Date Prepared: 7/1/13 By: Wes Campbell

**SECTION II - Ingredients**

Chemical names: Triazole salt , Inorganic salts (food grade). Not listed as a carcinogen in NTP, IARC or OSHA. Hazards associated with handling this product are noted in the sections below.

**SECTION III - Hazards Identification**

**HMIS rating:**

**Health 1, Flammability 1, Reactivity 0**  
As with all film products, Weapon and Ammo Cloaks may combust when exposed to open flame.

**SECTION IV - First Aid Measures**

Emergency First Aid Procedures:

**Swallowing:** Overexposure is not likely because the product is a film. If swallowed, administer at least 3-4 glasses of water but do not induce vomiting or give water to unconscious or convulsing person. Seek medical attention.

**Skin contact:** Wash with soap and water. However, overexposure is not likely because product is a film.

**Inhalation:** Overexposure is not likely because the product is a film. No emergency care is anticipated. If irritation or discomfort occurs, remove individual to fresh air (see section VIII). **Eyes:** Overexposure is not likely because the product is a film. If desired, following eye contact, flush eyes with plenty of water for several minutes. Get medical attention if irritation occurs.

**SECTION V - Fire and Explosion Hazard Data**

**Flash Point:** NA

**Extinguishing Media:** Recommend alcohol-resistant foam, water, foam, carbon dioxide.

**Special Fire Fighting Procedures:** Fire may produce smoke containing hazardous products of combustion. Use appropriate breathing apparatus and full protective equipment.

**SECTION VI - Accidental Release Measures**

This product is not expected to cause a hazardous situation. As a solid, spill containment is not an issue. See section XIII for disposal information.

**SECTION VII - Precautions for Safe Handling and Use**

**Precautions to be taken in handling and storage:**

Normal precautions common to good manufacturing practice should be followed in handling and storage. This product is for industrial use only.

**Spillage:** No spillage problems are anticipated.

**Storage:** Store in dry, well-ventilated warehouse environment. Store on sturdy pallets and in sturdy racks.

**SECTION VIII - Special Protection Information**

**Respiratory protection:** Under normal handling conditions, respirator protection is unnecessary. If personnel experience respiratory discomfort or irritation, and ventilation is not possible, a NIOSH approved respirator is recommended.

**Ventilation:** Normal (mechanical) ventilation is expected to be satisfactory.

**Protective gloves:** All types are adequate.

**Eye protection:** Safety glasses.

**Other protective equipment:** Safety shoes and appropriate lifting equipment are recommended when handling large rolls (>34 kg.).

**General:** Observe proper industrial hygienic practices. Wash before eating, drinking, or smoking. Class No. 55 unprinted wrapping paper or film.

Hazard labeling	None required
UN Number	None required
NA Number	None required
DOT Exemption No.	None required.

This product is non-hazardous. No shipping restrictions apply.

**SECTION IX - Physical/Chemical Characteristics**

Not applicable. Product is a film.

**Boiling Point:** NA

**Specific Gravity:** NA

**Melting Point:** >200° F (expected to be the same for a PE film).

**Water Solubility:** NA

**Appearance and Odor:** Polyethylene Film (solid) with slight odor.

**SECTION X – Stability and Reactivity Data**

**Stability:** Stable under recommended storage and handling conditions.

**SECTION XI – Toxicological Information**

No experimental toxicological data on the preparation is available.

**Miscellaneous Exposures:** This product is a polyethylene film and is often used in the form of a bag product. Due to the potential for asphyxiation this product should be kept out of the reach of children.

---

**SECTION XII - Ecological Information**

There is no ecological data on the product itself.

---

**SECTION XIII - Disposal Considerations**

**Disposal recommendations:** Recycling is strongly recommended as an option. Consult your local waste recycling facility for information. Landfill or incinerate in a furnace, where permitted under appropriate Federal, State, and Local regulations.

---

**SECTION XIV - Transportation Information**

This product is non-hazardous. No shipping restrictions apply.

---

**SECTION XV - Regulatory Information**

Superfund Amendments and the Reauthorization Act of 1986 (SARA) title III require emergency planning based on threshold planning quantities (TPQs) and release reporting based on reportable quantities (RQs) in 40 CFR 355 (used for SARA 302, 304, 311, and 312). Components present in this product at level, which could require reporting under the statute, are:

Sodium Nitrite (total concentration in finished product <1%)

Superfund amendments and the Reauthorization Act of 1986 (SARA) title III require the submission of annual reports of release of toxic chemicals that appear in 40 CFR 372 (for SARA 313). This information must be included in all MSDS' that are copied and distributed for this material. Components present in this product at a level, which could require reporting under the statute, are:

Sodium Nitrite (total concentration in finished product <1%)

**TSCA:** All ingredients used to produce the above formulation are listed in the toxic substances and control act inventory as required by federal law.

**CA Proposition 65:** WARNING - This material contains the following chemicals known to the state of California to cause cancer: None.

**Canadian WHIMS:** This MSDS was prepared in accordance with Canadian Controlled Product Regulations. This product meets hazard class criteria D2B.

**Massachusetts:** Any component of this product which is a hazardous chemical as listed in the Massachusetts substance list is shown in Section II of this MSDS. Any listed chemicals not shown in section II are as follows: None

**New Jersey:** Non-hazardous ingredients are being held as trade secret information. Any component of this product which is a hazardous chemical as listed on the New Jersey hazardous list is given in Section II of this MSDS. Any listed chemicals not shown in Section II are as follows: None

**Pennsylvania:** Non-hazardous ingredients are being held as trade secret information. Any component of this product which is a hazardous chemical as listed on the Pennsylvania hazardous chemicals not shown in Section II are as follows: None
